Growth Decisions
There comes a time in the life of every growing business when its communications and operations needs exceed the capabilities of its legacy phone system. Business owners and IT directors must find new ways for multiple departments to collaborate in order to stay competitive in the market.

"By 2020, 78% of SMBs will use the Cloud."\(^1\)

With limited resources available, more and more organizations are choosing to migrate to the cloud instead of investing in a system that is destined to be obsolete.

The Right Tools to Compete!
Across the United States and around the world, business leaders are looking for more than just a business phone system to stay competitive in today’s dynamic marketplace. We listened to our customers. In addition to helping reduce their costs, customers want a communications solution to help them accomplish these key business objectives:

- Enhance business continuity
- Drive IT efficiency
- Increase business velocity
- Enable greater collaboration across teams
- Guard against technology obsolescence

With its unique design and cloud-based configuration, Frontier AnyWare™ 3.5 can help you accomplish all of these important objectives. Ask your Frontier Business sales representatives for details.

World-Class Feature Set
Frontier AnyWare™ delivers enterprise class telephony features to you. Gain the call control features at the user and organizational levels that the world’s most respected businesses have. Frontier AnyWare was built on the platforms they use to run their global operations.

With professional grade add-ons like Contact Center, Collaboration, CRM Integration and Business Analytics, all rolled into an easy to use remote management platform, Frontier AnyWare provides the competitive advantage business owners have been looking for from their communications solutions.

Frontier AnyWare increases the capabilities of your communication system while reducing costs. Our hosted-in-the-cloud business communication solution delivers the flexibility business owners and IT directors need to move to the cloud in a manner that’s right for your organization. When you move your phones to the cloud with Frontier AnyWare, you’ll enjoy enhanced collaboration and better protection against outages due to hardware failures, while helping to reduce your IT costs and workload.
