

# Frontier Secure

Frontier Secure helps protect your digital assets from a variety of risks—loss, theft, corruption, and more. Start protecting these assets today with a Frontier Secure product featuring on-demand expert support and innovative digital solutions.

## COMPUTER SECURITY PRO

### Protection from cyber theft and viruses

- Detects and eliminates viruses, spyware, ransomware, and other malware on up to five workstations—Windows and Apple.
- Offers a cloud-based portal so you can monitor and manage your devices from anywhere at any time.
- Requires no complicated installation or training—it's plug and play.
- Gives you the security of automatic software upgrades, virus definition updates, advanced malware protection, and more.

## MOBILE SECURITY PRO

### Protect your Android devices

- Detects and eliminates viruses, spyware, ransomware, and other malware on Android OS devices.
- Provides anti-theft features including remote locate, lock, and wipe.
- Requires no complicated installation—it's plug and play.

## OFFICE MULTI-DEVICE PROTECTION

### Protect your computers, tablets, phones, TVs, and more

- Covers electronic and mechanical failure for multiple covered devices and accessories.
- Covers accidental damage from handling—including cracked screen, spills, and drops—for laptops, tablets, and netbooks.\*
- Features a quick, easy claims process—one number to call, and no receipts or contracts to save.
- Offers on-site service for desktop computers and large office equipment and pre-paid express shipping for smaller devices.

*\*Smartphones are not supported.*
